

## ROTARY CLUB-TIMOG CHAPTER DONATES TO VMMC

8 February 2021- In a simple and brief turnover ceremony inside the operating room of the hospital, the Rotary Club of Timog-Quezon City donated a two (2) units Negative Pressure Operating Room and Isolation Room to boost the VMMC's COVID-19 response.

In his short message, Ferdinand P. Yumang, president of Rotary Club of Timog-Quezon City said that, "inspite of the pandemic, this monumental project was a successful one and was able to hurdle this machine for the veterans of VMMC." He also said that this will augment the hospital's current capacity to handle Covid -19 related cases and will ensure the safety of our medical workers". Mr. Yumang also acknowledged past district governor and doctor Reynaldo David for completing the project.

Dr. Alfredo Uy, Head, Urology Section, extended his appreciation for donated negative pressure equipment. This was followed by the ceremonial ribbon cutting and blessing of the venue.

The rotary club of Timog Quezon City which started in early 1987 has been providing civic and community projects in some areas of Quezon City. Even before the pandemic happened, it conducts outreach programs and livelihood trainings in partnership with other NGOs to help uplift the lives of people in a community.
